CLINICAL EXCELLENCE COACHING

HOSPITAL SPONSORSHIP BRIEF

MPD Mentorship

Give your Magnet Program Director a mentor, a development plan, and practical tools to lead the work.

What your MPD receives

One-to-one mentorship

Work through role-specific challenges with an experienced MPD and agree on a next action.

A personal development plan

Set priorities for 30, 60, and 90 days, with session notes and a 90-day reassessment.

A Magnet Portfolio

Organize writers, drafts, evidence, and next steps in the MPD Studio mentorship workspace.

Practical learning resources

Use writing templates, sample write-ups, CEC Writing Academy learning, and CEC resources.

What the first 90 days could look like

Illustrative plan. Priorities and pace are set together.

BY DAY 30

Set priorities

Review the role and choose development goals.

BY DAY 60

Apply a skill

Work through an approved project or challenge.

BY DAY 90

Review progress

Reassess goals and agree on the next priorities.

What the hospital agrees to

Agree with CEC on the MPD's goals, which work can be discussed, and how often to meet. CEC provides a quote based on that scope. Full submission preparation is scoped separately.

Discuss sponsorship

Send an inquiry to CEC. We will follow up by email to discuss your goals and fit.
